A photograph of a modern hospital hallway. In the foreground, a white reception counter features the 'quirónsalud' logo. Behind the counter, a male and a female staff member in teal scrubs are looking at a laptop. In the background, two more staff members in teal scrubs and white pants are reviewing documents in a brightly lit hallway with white walls and doors.

E-HEALTH

## Digital Hospital

We are aware of how important it is to use technology by people and what that might mean. The current situation requests an immediate action plan and that is why Quirónsalud has already begun improving its processes with tools to make Access to information easy and grant quality in terms of Health.

Quirónsalud aims to become a reference in terms of technology

Patients are committed to taking care of their Health and Quirónsalud is committed to personalize medical assistance by preventing by taking part into this important process.

Mi Quirónsalud has already reached 4 million users. This allows us to get closer to patients and processes needed to ensure they are receiving the best treatment possible.

## Hospital quirónsalud DIGITAL

Personalized medical assistance.

The patient decides then how, when and where. Partnering with technology allows us to make better diagnoses and give more precise treatment plans.
